

Frequently Asked Questions

Big Blue Marble Academy (BBMA)

www.bbmacademy.com

Will our tuition increase?

There will be no increase in tuition at this time. We will make evaluations based on cost-of-living and industry pricing to determine any changes for the future.

Will the policies stay the same?

Effective May 1, 2021, this location will follow all BBMA parent policies, including center holiday schedules.

Will the staff remain the same?

Every team member will play an important role as we work together as a team to make the transition smooth for the children, families and staff at this location. As the Operations Team leads the transition, we will make assessments and recommendations for all opportunities within Big Blue Marble Academy, for any position changes.

Will I have to complete new paperwork?

Yes. Due to the requirements of the former franchise, we are required to have all children

complete new paperwork. We will have a team on-site to assist you with this, as well as explain payment options, and set up a new fingerprint security check-in/out process. All paperwork will have to be completed by Wednesday, March 31, 2021 in order for your child to continue attending when we officially assume operations of this location on Wednesday, March 31, 2021..

Will the curriculum stay the same?

We take great pride in our curriculum that has been carefully prepared to incorporate the early learning standards from all of the states where Big Blue Marble Academies are located. In addition, we incorporate world language programming that includes a second language enrichment in Spanish, French or Mandarin for all children on a weekly basis. Our curriculum is implemented through a comfortable timeline for each new center, as we are able to properly train teachers and prepare them for success in the BBMA classroom.

Will there be building changes?

Yes. Our Big Blue Marble branding team will make assessments and recommendations shortly after the transition. You will see new signage and decor related to our branding and mission. Any building maintenance or improvements will be assessed by our Business Development Team and implemented as needed.
